Worldwide Reputation for Providing Experience, Expertise, Excellence

For over 25 years, professionals have trusted MilesTek for their custom cabling requirements.

We specialize in custom cabling solutions for military, aerospace, communications, industrial and transportation applications. Whether your job is simple or complex, count on our cable assembly experts to make sure your exact specifications are executed. MilesTek has earned the reputation of delivering high-quality products that are 100% tested and guaranteed to perform.

Trusting MilesTek to be your provider for military-grade cabling requirements and components can easily be justified by the trust placed in us by our vendors and manufacturers. MilesTek is an approved supplier for many Tier I and Tier II Defense and Aerospace companies, including:

**Boeing • Lockheed Martin • Raytheon
Rockwell Collins • Honeywell • L3 Communications
GE • General Dynamics • Northrop Grumman**

**Recipient of Silver Boeing
Performance Excellence Award 2008**

Why Do Companies Rely on MilesTek?

High-Quality, Short Lead Times, On-Time Delivery

From high-volume production, to lower-volume custom work, MilesTek is your source for cable assemblies and harnesses.

Our in-house design engineering staff has the experience to custom design your cables, revise your current designs to optimize cost effective manufacturing, or simply build to your prints, all with shorter lead times than our competition. Our manufacturing facility in Denton, Texas is staffed by highly-skilled technicians dedicated to producing quality products and delivering them on-time to meet your deadlines.

In addition to cable assemblies, MilesTek also offers sheet metal fabrication and electro-mechanical assembly.

MilesTek's Advantages:

- Large connector and cable inventory
- CAD Design Capability
- Detailed Drawing Proofs
- Prototype Development
- Testing
- Build to Print

**ISO 9001:2000 certified,
small business concern
AS9100 certification underway**

MilesTek uses quality components from trusted manufacturers such as:
